To the citizens of Gaarzerhof: Beware. It has come to our attention that there is an overgrown enraged midget on the loose. He was last seen on the outskirts of Gaarzerhof ravaging the gardens and killing our sheep. Immediate action is necessary. Please use the proper procedures for yours and the town's safety.

- 1.) Do not feed the enlarged midget.
- 2.) Under no circumstances should you *sing* to the midget.
- 3.) Put all of your food in the top cabinets in your houses.
- 4.) Put all livestock on the top floor of your home.
- 5.) Keep children five and under away from him, because he considers them family.
- 6.) The only way to secure your house is to surround it with lots of bananas. The yellow frightens him. If possible, dress yourself in a yellow banana suit.

If you have seen the midget, please contact Kayla Martin at the Midget
Emergency Crisis Center at 555-MDGT

I repeat. This is an emergency. Take all necessary precautions given to you.
